**From the Principal**

Dear Families,  
 Next week students in grades 3-6 will be taking practice tests for ILEARN. These are short sessions that give students opportunities to become familiar with the format and online tools they will be using during the operational tests the following weeks. ILEARN measures mastery of grade level standards in Math, Language Arts, Science (4,6) and Social Studies (5). **Students do their best work when they test with their class, so please help your child by making sure they are on time each day and schedule appointments after school or in the afternoon if necessary.** Thank you for your cooperation to make testing run smoothly. Below is our anticipated testing schedule. This is a great opportunity to show Personal Responsibility, Integrity, and Determination!

**Fun Things to do in April**

- Grow something from a seed:** Get a jump on your garden and start seeds indoors to be replanted later in spring.
- Go birdwatching:** Spring migration is happening, so look for new species of birds each day. Keep your eyes out for robins, mourning doves and cardinals.
- Stargaze:** There are many happenings in the night sky that are exciting to watch. Many smartphone apps allow you to learn more about what you're seeing in the sky.
- Have a picnic:** Head to your favorite park, neighborhood greenspace or backyard to enjoy a meal with your family.
- Set up camp in the back yard:** Set up a tent or make a blanket fort. Read books, play board games and eat a snack.
- Stop and smell the flowers:** Take a stroll through your neighborhood or Local Park to see what's in bloom. Spring flowers and blooming trees and shrubs smell wonderful and provide a pop of pretty color- especially on days when the skies are a little grey. Get some exercise: Run, walk or job in your neighborhood or your local park or on the paved trails.
