## From the Principal

Dear Families,

It is no secret that the sun can have harmful effects on our skin and eyes if we are overexposed. But the positive effects of the sun are important to note as well. Even 5-15 min of sun on our face and arms a couple of times a week helps us soak up Vitamin D which boosts our immune system. Sunlight also releases serotonin which can improve our mood and outlook on life! I know when I check my weather app and see those little rays of sunshine three days in a row, it always makes me smile. The clear, sunny weather has been a blessing at recess, but it also remains rather cold. Please continue to send your children to school with coats to protect them from the chill so we can all stay healthy. Have a great weekend!
